

Project Demo Planning

Date	30 June 2026
Team ID	
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the Smart Lender project, explain the problem statement, objectives, and project motivation.	2 mins	Madhan Mohan
2	System Architecture	Explain the system architecture, technology stack, Random Forest model, Flask framework, and SQLite database.	2 mins	Aakanksha
3	User Authentication	Demonstrate user registration, secure login, and session management.	2 mins	Sadiq
4	Loan Prediction	Demonstrate entering applicant details, AI-based loan prediction, confidence score, and risk assessment.	4 mins	Madhan Mohan
5	Dashboard & Reports	Demonstrate dashboard analytics, prediction history, and PDF report generation.	3 mins	Aakanksha
6	Deployment & Conclusion	Demonstrate the deployed application (Render), summarize the project, future enhancements, and answer questions.	2 mins	Sadiq

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the challenges of manual loan approval and the need for AI-based decision support.
2	Solution Overview	Present the Smart Lender architecture, technologies used (Flask, SQLite, Scikit-learn, Bootstrap), and the Random Forest model.
3	Live Feature Demonstration	Demonstrate registration, login, loan prediction, dashboard analytics, prediction history, and PDF report generation.
4	Q&A Session	Answer evaluator questions, discuss future enhancements such as cloud databases, additional ML models, and email notifications.
